

We divide the Intercultural Course Overseas Study Tour into two destinations, Canada and USA. Juniors of the Intercultural Course have cross-cultural experiences by visiting the exchange schools, doing a homestay and some sightseeing for 13 days in October. Especially, a stay with a family provides them with a chance of using English and an enthralling experience they won't forget. Also, words fail to describe the joy when the class comes together in San Francisco on the last day again.
